

DustFixx AS 25

Order No. 130217

Equipment

- **Cyclone technology** for pre-separation of the suction material
- **Transparent filling** container for detecting the filling level
- Hose connection **suitable** for **ISP, ISC and uClean series** as well as for many devices of other manufacturers
- Separation of **fine to coarse suction material**
- **Rectangular design** - for safer and more practical stowage of the pre-separator
- Direct guidance of the connection hose via angled sleeves ensures **safe standing and ideal space conditions** even under the workbench
- **Metabox - mounting system** for locking on ISP vacuum cleaners with railing, Unifix adapter plate and all Metabox interfaces
- **Dust-free transport** - closure of the container by connecting the inlet and outlet by the connecting hose
- **Comfortable to carry** due to two handles positioned on the side
- Easy **low-dust disposal** via PE disposal bags
- Trays for small parts on the top
- **Antistatically equipped** - static charges in the suction hose are discharged via the pre-separator and connecting hose to the vacuum cleaner

Technical Data

Separation efficiency	Wood dust > 99% Mineral dust > 90%
Max. separable particle size	20 mm diameter
Container volume	25 l
Weight (with connection hose)	4,1 kg
Dimensions (L x W x H)	43 x 33 x 38 cm
Height H with mounted connection hose	45 cm
Length connection hose	90 cm
Diameter connection hose	49 mm

Scope of Supply

- 1x Connection hose (Set connection hose DustFixx Order No. 465951)
- 1x PE disposal bag (Set FBPE 25l - 10 pcs Order No. 464756)
- 4x Adapter pin (Set adapter pin Order No. 465944)
